Column 8: 30 Jun 22 – animals housed at Zoos Victoria as at 30 June 2022
1.0.0 = 1 male
0.1.0 = 1 female
0.0.1 = 1 sex has not been determined
3.6.1 = 3 males, 6 females and 1 sex unknown/not determined

This Annual Inventory Report has been generated using ZIMS (Zoo Information Management System), a web-based animal-records data-based managed by Species 360. Common names and scientific names used by ZIMS on occasions may differ from those normally used at Zoos Victoria. On occasions, numbers captured in these inventory reports may deviate from actual numbers. Whenever possible, manual edits have occurred to amend these inconsistencies.

**Inventory Report Melbourne Zoo 2021/22 (continued)**

#: Transfers out have included eggs which have been included in departures total, but not in births, hence more Lord Howe Island Stick Insects transferred out than housed at Melbourne Zoo.

**Summary Numbers**

**Figure 1:** Number of living animals at Melbourne Zoo as at 30 June 2022

Tallies reported in summary number differ to inventory report – this is due to the way Species 360 handles data for various reports

Table 1 shows a total of 3552 living animals at Melbourne Zoo (including births and acquisitions)

**Figure 2:** Number of animal taxa housed at Melbourne Zoo

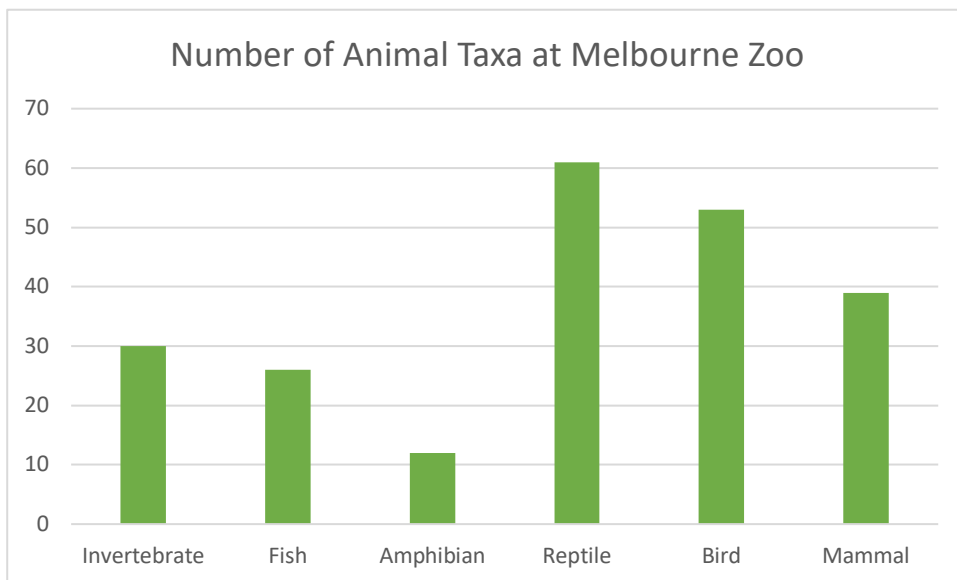

Table 2 shows a total of 221 animal species housed at Melbourne Zoo

**Changes in species housed at Melbourne Zoo:**

The following new species were acquired during the past 12 months:

- Brown Soldier

#### **Inventory Report Melbourne Zoo 2021/22 (continued)**

- Golden Orb-weaver (*Nephila pilipes*)
- Rainforest Tree Cricket\*
- Houston's dragon
- Pygmy spiny-tailed skink\*
- Macleay's watersnake
- European glass lizard
- New Holland Mouse

\*Species acquired but due to lifestage/death/disposition adults are no longer housed at Melbourne Zoo

The following species are no longer housed at Melbourne Zoo:

- Oleander butterfly
- Silver Perch
- Northern spotted barramundi
- Brown Tree Snake
- Fiordland penguin
- Major Mitchell's Cockatoo
- Java sparrow
- Australian Pelican
- Green-thighed parrot
- Black-headed parrot
- African Grey Parrot

## Wildlife Recovery and Rescue

### Zoos Victoria's contribution to recovery programs

As part of our Fighting Extinction commitment, Zoos Victoria participates in a number of government-agency managed Recovery Programs for threatened species. Despite the pressures of COVID-19, during the past twelve months a number of animals were released into protected habitat to help re-establish and bolster wild populations.

### Zoos Victoria's contribution to wildlife rescue and rehabilitation

Every year hundreds of injured and orphaned wildlife are brought to Zoos Victoria for assessment, treatment and care. Many of these cases involve trauma, such as car accidents or attack by cats and dogs, resulting in fatal injuries. These cases may require euthanasia. Some cases may require rest and can be released within 24 hours of arrival. Some cases have minor injuries, and can be transferred to registered wildlife shelter operators having the appropriate expertise for further care. ZV veterinary staff will continue to monitor the health of cases transferred to wildlife carers. During 2020/21:

- Melbourne Zoo, received 707 wildlife admissions, of which 185 were successfully treated and returned to the wild, whilst 139 were transferred out to registered wildlife carers for further care and release
- Healesville Sanctuary, received 2143 animals, of which 325 were successfully treated and returned to the wild, whilst 645 were transferred out to either registered wildlife carers for further care and release or other government organisations
- Werribee Open Range Zoo, received 861 animals, of which 84 were successfully treated and returned to the wild, whilst 202 were transferred out
